

Poster Guidelines

Poster sessions are a valuable method for authors to present papers and meet with interested attendees for in-depth technical discussions. Therefore, it is important that you display your results clearly to attract people who have an interest in your work and your paper.

PREPARING YOUR POSTER PRESENTATION BEFORE THE CONFERENCE

Your poster should cover the **KEY POINTS** of your work. The ideal poster is designed to:

- attract attention
- provide a brief overview of your work
- initiate discussion and questions
-

The title of your poster should appear at the top.

The author(s) name(s) and affiliation(s) are put below the title.

Your paper should fit within the following dimensions:

- 2.95 feet wide (90 centimeters)
- 4 feet tall (121 centimeters)

Carefully prepare your poster well in advance of the conference. There will be no time or materials available for last minute preparations at the conference. If you think you may need certain materials to repair the poster after traveling, **BRING THEM WITH YOU**.

Use color to highlight and make your poster more attractive, by using pictures, diagrams, cartoons, figures, etc., rather than only text wherever possible.

ONSITE INFORMATION

Your poster must be posted at least 1 hour prior to your presentation time and removed immediately after the session. If your poster is left behind, it will be discarded.

Picture of Poster Board

White boards are provided this year.

Each white board will be used for 4 posters. Two on one side and the other two on other side.
